Report: R-104
Title: EV Battery Recycling Market 2025
Publisher: Cognitive Market Research (CMR)
Published Date: February 14, 2025
Sector: CleanTech | Access: Paid

Executive Summary:
Comprehensive study of lithium-ion battery closed-loop recycling, hydrometallurgical extraction, black mass processing, and regulatory circular economy mandates.

Page 2 of R-104: Supply Chain Dynamics & Feedstock Availability.
Detailed breakdown of end-of-life battery collection networks and OEM partnerships.

Page 3 of R-104: Supply Chain Dynamics & Feedstock Availability.
Detailed breakdown of end-of-life battery collection networks and OEM partnerships.

Page 4 of R-104: Supply Chain Dynamics & Feedstock Availability.
Detailed breakdown of end-of-life battery collection networks and OEM partnerships.

Chapter 3: Global Sizing and Projections

The global EV battery recycling market size was valued at USD 9.25 billion in 2024 and is projected to expand at

Asia-Pacific accounted for 52% of global recycling capacity in 2024, led by high battery cell manufacturing outpu
